Resolving Situations Where the CMA Process Incorrectly Reports PFC Data

Approved by: Deputy Administrator, Farm Programs

1 Overview

A

Background

The CMA Process reports producer and farm data to CMA's and LSA's using data transmitted from County Offices to the KCMO mainframe.

Eligibility for Marketing Assistance Loans and LDP's on **contract commodities** through CMA's and LSA's requires the quantity to have been produced on a farm with an **enrolled** PFC according to 8-LP, paragraph 132.

The CMA Process reports farm PFC data:

- from the transmitted Administrative County Office's MG.PFM, PFC Contract File
- through CMA Process Field [54], "No Approved Contract".

If no enrollment date is found in a farm's MG.PFM record, the CMA Process reports the farm as ineligible with a "Y" in Field [54].

B

Purpose

This notice provides County Offices with instructions for resolving situations where the CMA Process incorrectly reports a farm as not having an enrolled PFC.

Disposal Date	Distribution
June 1, 2000	State Offices, except AK, HI, and PR; State Offices relay to County Offices, and FAX to CMA's and LSA's
